L. A. Martin, Chillicothe, Mo., writes:

HORRORS OF THE BULL PEN.

Witness Tells of the Idaho Mining Troubles Last Summer.

WASHINGTON, Feb. 23.—The investigation of the action of the military and civil authorities of the Coner d'Alene mining riots was continued today by the committee on military affairs.

Mr. William Randolph Stinson testified at length as to life in the "bull pen" where the accused miners were incarcerated. His description was supplemented by a large number of photographs showing the prison enclosure consisting of a number of rude shanties surrounded by a wire fence. The witness was a school commissioner and was removed for alleged sympathy with the miners and subsequently arrested.

He said the "bull pen" was very filthy. The food was bad. There was practically no sanitary arrangements. Mr. Stinson also told of the guard house, a part of the "bull pen," where he and others were held most of the time. The rain beat through it and the inmates were often soaking wet. The straw had been tramped into the ground and the officers in charge of the United States forces refused to allow hay to be brought in. Many drunken soldiers were put in the guardhouse with the accused.

An army officer said he ordered a corporal to take a cigar from the witness and when the latter threw the cigar down the officer reduced the corporal to the ranks for not snatching it. The officer ordered that the men be treated with severity.

FRANKFORT, Ky., Feb. 23.—The senate passed the McCord railroad bill by a vote of 19 to 0. The bill empowers the state railroad commissioners to regulate freight rates and to punish extortion. It was indorsed in a plank in the Democratic state platform and one of the leading issues of the campaign.

ANTI-IMPERIALISTS SCORE M'KINLEY

Strongly Condemn Administration's Policy.

CABINET IS NOT TO BLAME

Resolution First Placed the Responsibility Upon the Party, But an Amendment Was Substituted Arraigning the President.

PHILADELPHIA, Feb. 23.—The second day's session of the eastern conference of anti-imperialists was characterized by the adoption of a strong resolution condemning the expansion policy of the administration. President McKinley was severely criticized and held personally responsible for the "criminal aggression of the country."

The resolution was unanimously adopted with slight amendments. It is in part as follows:

"Whereas, the present administration, under the leadership of President McKinley, has undertaken to extend the sovereignty of the United States over various tropical islands in no case with the consent of their people, and in the Philippines by force of arms, and denies that the inhabitants of these islands have any constitutional rights;

"Resolved, that this policy violates the principles upon which our government rests, and not only subverts the liberty of these islands, but also endangers the permanence of free institutions in our own country;

"Resolved, that we will support no man for the presidency or for congress who is not known to be absolutely opposed to this policy, and that we will do our best to defeat all candidates for either office who favor it."

Several delegates objected to the use of President McKinley's name on the ground that it was unwise to insert personalities. The resolution when first presented placed the responsibility for the war in the Philippines with the Republican party, under the leadership of President McKinley, but on motion of Moorfield Storey of Massachusetts the words "the present administration" were substituted.

Answering the objections of those who favored striking out the name of Mr. McKinley, Frank Stephens of this city said:

"That murderer is the man who is chiefly to blame for the shame that rests upon the country, and his name should not be removed."

South Carolina Prosperity.

Kershaw, S. C., Feb. 23.—It is now a settled fact that Kershaw is to have a cotton mill. The capital is to be \$100,000. It is said that a charter has been applied for. When a town has such men as E. D. Bickney, S. W. Hatch, R. L. Backman and E. M. Estridge among its citizens can it be in want of prosperity. One or two new cottages are going up and the value of real estate is increasing since the factory is to be a reality.

"I think I would go crazy with pain were it not for Chamberlain's Pain Balm," writes Mr. W. H. Stapleton, Hermine, Pa. "I have been afflicted with rheumatism for several years and have tried remedies without number, but Pain Balm is the best medicine I have got hold of." One application relieves the pain.
